The above installation prices are based on the assumption that the site is flat, of grass or soft earth, allows easy access for commercial vehicles and presents no unusual obstacles. Should the ground conditions necessitate the provision of temporary roads/tracks, additional costs may apply. All prices are subject to a site visit from our Installation Contracts Manager. Our price is also based on the assumption that underground conditions which cannot easily be identified during the site survey do not impede the construction works detailed. Should unexpected underground conditions be encountered further works may be required at an additional cost, the price is to be confirmed by our Installation Contracts Manager.

Please note the above costs do not include safety surfacing.

Please also be aware of possible additional costs after the survey for temporary storage "min £300", temporary security fencing "min £350" and welfare facilities "min £350".

At Wicksteed we are striving to continue to deliver the standards of service that our loyal customer base is used to receiving. Unfortunately in these unprecedented times the company is unable to predict circumstances outside of our control precipitated by the Covid-19 pandemic such as increased government regulation and employee periods of mandatory isolation. Due to this, lead times will be fluctuating with the general Covid-19 situation. It is the responsibility of Wicksteed to ensure that our employees and the general public are at all times being kept as safe as possible and this will sometimes result in delays. If you entrust Wicksteed with your project we will of course keep you informed throughout your works on the current situation and are always here to help with any queries that you may have.

If you need any further assistance I look forward to hearing from you.

Kind regards
